Requirement	Result
Field of Vision	PASS
Optical Properties	PASS
UV Stability	PASS
Increased Robustness	PASS
Low Energy Impact — F	PASS
Medium Energy Impact — B	PASS
Protection Against Large Dust Particles	PASS
Protection Against Liquid Droplets	PASS
Protection Against Molten Metal & Hot Solids	PASS
Stability at Elevated Temperature	PASS

USER / APPLICATION FEATURES

Suitable for **general workplace and industrial safety** applications. The goggle incorporates an **adjustable headband** for retention and is designed to allow **wearing over prescription spectacles**. The tested report supports protection against **large dust particles** and **liquid droplets**.

CERTIFICATION & STANDARD

Standard	EN 166:2002 — Personal Eye-Protection
Certificate	EC Type-Examination Certificate No. 1002
Certification Body	EUROCERT

Certification note: The supplied certificate states validity through 16 August 2025. For current 2026 certification/CE claims, use an updated certificate if available. The supplied report demonstrates liquid-droplet protection; it does not by itself establish a specific chemical-resistance classification.
